

SECTION 6. *Navigating the Roads*

TRAFFIC LANES

A traffic lane is a section of road for a single line of traffic.

Lane Markings

Lane markings on road surfaces help drivers know which part of the road to use and understand traffic rules.

Single Solid Yellow Line

A single solid yellow line marks the center of a road with two-way traffic. Do not pass a vehicle in front of you if there is only one lane of traffic going your direction and a solid yellow line on your side of the road.

Double Solid Yellow Lines

Do not pass over double solid yellow lines. Stay to the right of these lines unless you are:

- In a high-occupancy vehicle (HOV) carpool lane that has a designated entrance on the left.
- Instructed by construction or other signs to drive on the other side of the road because your side is closed or blocked.
- Turning left across a single set of double yellow lines to enter or exit a driveway or private road or make a U-turn.

Two sets of solid double yellow lines spaced two or more feet apart are considered a barrier. Do not drive on or over this barrier, make a left turn, or make a U-turn across it, except at designated openings.

Broken Yellow Line

A broken yellow line indicates you may pass if the broken line is next to your driving lane. Only pass when it is safe.

Single Solid White Line

A single solid white line marks traffic lanes going in the same direction. This includes one-way streets.
