

- You have a certain number of people in your vehicle. There will be signs at the on-ramp or along the road to tell you the minimum number of people. Road signs also list the hours when the HOV rules apply.
- You are driving a low emission or zero emission vehicle. You must display a special DMV-issued decal.
- You are riding a motorcycle (unless otherwise posted).

The road surface in an HOV lane is marked with a diamond symbol and the words Carpool Lane. Do not cross over double solid lines to enter or exit an HOV lane. Use designated entrances and exits.

Center Left Turn Lanes

A center left turn lane is located in the middle of a two-way street. It is marked on both sides by two painted lines. The inner line is broken and the outer line is solid. Use the center left turn lane to prepare for and make a left turn or U-turn. It is not a regular traffic lane or passing lane. You may only drive for 200 feet in the center left turn lane. To turn left from this lane:

- Look for other vehicles coming toward you in the center left turn lane.
- Signal.
- Look over your shoulder to check your blind spots.
- Merge completely into the center left turn lane so you do not block traffic.
- Turn when it is safe.

Turnout Areas or Lanes

Some two-lane roads have special turnout areas or lanes. Merge into these areas or lanes to allow cars behind you to pass.

You must use a turnout area or lane to let other vehicles pass when you are driving slowly on a two-lane road, where passing is unsafe, and there are five or more vehicles following you.
