

5. **Left turn from a one-way street onto a one-way street.** Start the turn from the far-left lane. Bicyclists can legally use the left turn lane for their left turns. If there are three or more lanes in your direction of travel, you may end your turn in any lane that is open.

6. **Right turn from a one-way street onto a one-way street.** Start the turn in the far-right lane. If safe, you may end the turn in any lane.

7. **Turn at a “T” intersection from a one-way street onto a two-way street.** Traffic going straight through the intersection has the right-of-way. You may turn either right or left from the center lane.

Braking

- Remove your foot from the accelerator and allow the vehicle to slow down. Lightly press the brake until you come to a full stop. Give yourself enough space and time to perform this maneuver.
- When stopping at a limit line, do not cross over the line. If stopping behind a vehicle, leave enough space to see their rear wheels.
