

How to Pass

When you are going to pass on an open highway:

- Signal that you plan on passing.
- Look over your shoulder to check your blind spots.
- Drive into the passing lane.
- Speed up to pass the vehicle.
- Signal and return to your original lane.

You may pass on the right only when:

- An open highway has two or more lanes going in your direction.
- The driver ahead of you is turning left and you can safely pass on the right. Never pass on the left if the driver is signaling a left turn.
- You are on a one-way street.

Never drive off the paved or main-traveled part of the road to pass.

Being Passed

If a vehicle is passing you or signals that they plan on passing, allow the vehicle to pass. Maintain your lane position and your speed.
