

Flashing Yellow Light

A flashing yellow traffic signal light is a warning to PROCEED WITH CAUTION. Slow down and be alert. You do not need to stop.

Flashing Yellow Arrow

You can turn, but your turn is not protected from other traffic. Proceed to turn left after yielding to oncoming traffic and proceed with caution.

Solid Green Light

A green traffic signal light means GO. You should still stop for any vehicle, bicyclist, or pedestrian in the intersection. Only proceed if you have enough space without creating a danger to any oncoming vehicle, bicyclist, or pedestrian. Do not enter the intersection if you cannot get completely across before the traffic signal light turns red.

Green Arrow

A green arrow means GO in the direction the arrow is pointing. The green arrow allows you to make a protected turn. Oncoming vehicles are stopped by a red traffic signal light.

Traffic Light Not Working

When a traffic light is not working, stop as if the intersection is controlled by STOP signs in all directions. Then proceed cautiously when it is safe to do so.
