

Pedestrian Signals or Signs

WALK or Walking Person

You may cross the street.

DON'T WALK or Raised Hand

You may not cross the street.

Flashing DON'T WALK or Flashing Raised Hand

Do not start crossing the street. The traffic signal light is about to change. Drivers must yield to pedestrians, even if the **DON'T WALK** light is flashing.

Numbers

The numbers count down the seconds left for crossing the street.

Diagonal Crossing

These are crisscross and diagonal crosswalks that allow pedestrians to cross the intersection in any direction at the same time. Cross only when the **WALK** signal allows it.

Sounds

Sounds such as beeping, chirping, or verbal messages help blind or visually impaired pedestrians cross the street.

Pedestrian Push Button

This is used to activate the **WALK** or Walking Person signal.

No Pedestrian Signals

If there are no pedestrian signals, obey the vehicle traffic signals.

Signs

Obey all warning signs regardless of their shape or color.

STOP Sign

Make a full stop before entering the crosswalk or at the limit line. If there is no limit line or crosswalk, stop before entering the intersection. Check traffic in all directions before proceeding.

Red YIELD Sign

Slow down and be ready to stop to let any vehicle, bicyclist, or pedestrian pass before you proceed.
