

Bicyclist Responsibilities

As a bicyclist, you must:

- Obey all traffic signs, signal lights, and basic right-of-way rules.
- Ride in the same direction as traffic.
- Always look over your shoulder to make sure the lane is clear before turning or changing lanes.
- Yield to pedestrians.
- Wear a helmet (if under 18 years old).
- Stay visible (for example, never weave between parked vehicles).
- Ride as near to the right curb or edge of the roadway as possible.
- Not ride on the sidewalk (unless allowed by the city).
- Make left and right turns in the same way drivers do, using hand signals and turn lanes.
- Use a bike lane, whenever possible, or use a through traffic lane.
- Have fully functional brakes.

Examples of turns for bicyclists.

Intersections with special lanes for bicyclists.

Bicycling at Night

When it is dark out, bicyclists should avoid wearing dark clothing. Your bicycle must have the following equipment:

- A front lamp with a white light visible from 300 feet.
- A built-in rear red reflector, solid red light, or flashing red light. This must be visible from 500 feet.
- A white or yellow reflector on each pedal, the bicyclist's shoes, or their ankles. These must be visible from 200 feet.
- A white or yellow reflector on the front wheel, a white or red reflector on the rear wheel, or reflectorized tires.

Bicycling in Travel Lanes

Bicyclists traveling slower than the flow of traffic must ride as close as possible to the right curb or edge of the road, **unless**:

- Passing a vehicle or another bicycle in the same direction.
- Preparing to make a left turn.
