

- Mount your cell phone on the windshield, dashboard, or center console. It cannot block your view of the road.
- Use the single swipe or touch feature on the mounted cell phone.

MINORS AND CELL PHONES

It is against the law for a minor to use a cell phone or electronic wireless device to answer calls and send or respond to text messages while driving.

EXCEPTION: Minors may use a cell phone to make a call for emergency assistance.

BE FAMILIAR WITH NEW TECHNOLOGY

The technology in vehicles is always advancing. We will see more self-driving vehicles and vehicles with advanced driver assistance systems (ADAS) on the road. Vehicles with these systems may respond to road situations differently than a human driver would.

BE AWARE OF CARBON MONOXIDE

All gas-powered vehicles produce carbon monoxide. Carbon monoxide is a deadly odorless gas released from a vehicle's exhaust pipe. Never start your vehicle inside the garage with the door closed. Symptoms of carbon monoxide poisoning include:

- Tiredness
- Yawning
- Dizziness
- Nausea
- Headache
- Ringing in the ears

If you are experiencing any of these symptoms, have your exhaust system checked.
