

vehicle behind you and turn your wheels away from the curb.

Six steps to enter safely into traffic:

- 1) Turn your head to look over your right shoulder and check through the rear-window for pedestrians, bicyclists, motorcyclists and other vehicles that can become a hazard;
- 2) Use your interior rear-view mirror to help keep an eye on hazards behind your vehicle;
- 3) Signal your intentions to move from your parking space into traffic;
- 4) Check your side mirrors for oncoming vehicles, pedestrians, bicyclists, in-line skaters, motorcyclists and other highway users;
- 5) Turn your head to look over your left shoulder out through the rear-window and begin to slowly drive forward. Make sure you can avoid the vehicle parked ahead when you enter traffic;
- 6) Turn your head and look over your left shoulder to look through the rear-window, drive into the traffic lane when it is safe to do so.

PARKING REGULATIONS

What people understand as “parking” is legally divided into three categories: parking, standing and stopping. Parking is when a vehicle is stopped, occupied or not, other than temporarily for the purpose of loading or unloading merchandise or passengers. Standing is similar to Parking, except that it only relates to receiving or discharging passengers. Stopping is literally that, bringing the vehicle to a stop (even temporarily).

A NO PARKING sign means you can make a temporary stop to load or discharge merchandise or passengers.

A NO STANDING sign means you can only make a temporary stop to load or discharge passengers. The driver cannot exit the vehicle.

A NO STOPPING sign means you can stop only to

obey a traffic sign, signal or officer or to prevent conflicts with other vehicles.

Besides parking, standing and stopping rules, there are statewide rules not always indicated by signs:

You cannot park, stop or stand:

- Within 15 feet (5 m) of a fire hydrant, unless a licensed driver remains in the vehicle to move it in an emergency.
- On the road side of a parked vehicle (“double parking”).
- On a sidewalk or in a crosswalk.
- In an intersection, unless permitted by signs or parking meters.
- On railroad tracks.
- Next to or opposite road work, construction or other obstructions if your vehicle blocks traffic.
- Within 30 feet (10 m) of a pedestrian safety area, unless another distance is marked.
- On a bridge or in a tunnel.

Parking or standing is not allowed:

- In front of a driveway.
- Within 20 feet (6 m) of a crosswalk at an intersection.
- Within 30 feet (10 m) of a traffic light, STOP sign or YIELD sign.
- Within 20 feet (6 m) of a fire station driveway or within 75 feet (23 m) on the opposite side of the road.
- Along a curb that is cut, lowered or made for access to the sidewalk.

You cannot park your vehicle within 50 feet (15 m) of a railroad crossing.
