

Gate and Flashing Light

Stop when the lights begin to flash before the gate lowers across your side of the road. Remain stopped until the gates are raised and the lights stop flashing.

At railroad crossings stop within 15 feet to 50 feet of the nearest rail when:

1. You are directed to do so by a flag person
2. There are flashing red lights or warning bells sounding
3. There is any warning device telling you a train is coming

**Pavement Markings**

Pavement markings help you just like signs and signals. They are used to warn and direct drivers and to regulate traffic.

Two-Lane Rural Road with Two-Way Traffic

Keep to the right of the yellow center line. You may cross a broken line when passing another vehicle or when the right half of the road is closed. Do not cross the line if it is not safe or it is a solid yellow line.

**Three Lane One-Way Roads**

When each lane on a one way road is marked with a broken white line, you may drive in any lane. When turning from a one-way road, make sure you move into the lane closest to the turn you are going to make well in advance of your turn.

**Left Turn Lane Only**

The only time a vehicle should enter the center lane is at a point where the vehicle will have time to slow down or stop in order to make a safe left turn maneuver.

Left Turn Lane Only

Special Note:
The center lane should never be used for passing or as a through-traffic lane.

Multi-lane Highway (Four or More Lanes)

Do not cross the double yellow line to pass. Stay in your lane as much as possible. If you are driving slower, keep in the right-hand lane.
