Crash Involving an Unattended Vehicle

If you are operating a motor vehicle that collides with and damages an unattended vehicle, you must immediately stop and either:

1. Locate the operator or owner of the unattended vehicle and give your name and address
2. Securely attach a written notice in a visible way to the unattended vehicle providing:
 - Your name and address
 - A statement of the circumstances of the collision.

Crash Resulting in Damages to a Fixture, Landscaping, or Structure

If you are driving a motor vehicle involved in a crash resulting ONLY in damage to a fixture, landscaping, or structure legally on or adjacent to a highway, you must:

1. Take reasonable steps to locate the owner (or person in charge) of the property and notify him/her of the crash
2. Provide your name, address, and registration number of the vehicle you were driving
3. If requested and available, you must show your driver license to the owner or person in charge of the property
4. If the crash is not investigated by a law enforcement officer and the crash has not resulted in injury to or the death of a person or damage to the property of any one person to an apparent extent of \$1,000 or more, you must make a written report of the crash and file it with the TxDOT no later than the 10th day after the crash.

Hit-and-Run Crashes

If you are involved in a hit-and-run crash, report this crash to law enforcement for investigation. The Texas Department of Insurance advises uninsured motorist coverage will pay for damages in hit-and-run crashes reported to a law enforcement agency.

Aiding the Injured

In the event you are involved in a crash that injures another person, consider the information below:

1. When calling a doctor or ambulance, ensure you take notice of your surroundings and state the location of the crash clearly and correctly.
2. Do not assume people are not injured simply because they say they are not. Send for skilled help as quickly as possible. Unskilled handling can do more harm than good.
3. Do not move or lift the victim(s) unless it is absolutely necessary. If a victim must be moved, get help and try not to change the position in which the victim was found.
4. Stop serious bleeding with thick cloth pads, as clean as possible, apply with pressure by hand or by bandaging.
5. Keep the victim(s) comfortable. If it is hot, cool the victim(s) and provide shade as much as possible. If it is cool, cover the victim with blankets or coats if necessary and if available.
