

EQUITY FOR ALL CUSTOMERS

The Department of Licensing (DOL) is committed to building a culture of belonging through our values: diversity, equity, inclusion, trust, and respect. Wherever possible, we provide equitable access and eliminate barriers for our customers. We provide reasonable accommodations upon request to those customers who need them to access our facilities and services. We offer language services to customers whose primary language is not English. DOL is dedicated to Pro-Equity Anti-Racism (PEAR). The agency has a robust and active PEAR team of community partners, employees, and leaders collaborating to create a service environment responsive to community input. For more information about accommodations and accessibility please see the final page of the guide.
