

PARALLEL PARKING

Entering a parallel parking space

1. Identify the space where you'll park, check traffic, and signal.
2. Reverse and look in the direction the vehicle will be moving.
3. Back slowly until your front bumper is in line with the rear bumper of the vehicle you're parking behind.
4. Turn your steering wheel sharply and back slowly into the space.
5. Turn the steering wheel rapidly to center the vehicle into the space.
6. Stop before touching the bumper of the vehicle behind you.
7. Move forward to adjust your vehicle in the parking space. Make sure your vehicle is no more than 12 inches from the curb.

Exiting a parallel parking space

1. Check traffic in all directions, place your foot on the brake, shift to reverse, and move backward as much as possible toward the vehicle behind you.
